

Qualify for a SBA Loan and Receive *Great Savings!*

Whether you're starting a new business or looking to expand an established business, we have a range of SBA loans to help you. SBA Loans can be used for purchasing equipment, financing the purchase of a business and in certain instances, working capital. The SBA guarantee can help borrowers overcome the problems of a weak loan application associated with inadequate collateral or limited operating history.

If you are seeking an SBA loan, your best bet is to work with a Preferred Lender. The SBA-guarantee process is tricky at best, and you want a lender who has been through it more than once. Preferred Lenders also have full lending authority and as a result can offer a one-day turnaround on completed loan applications!

"We live, work and play in Boston's South End and Mercantile Bank has always been a great neighbor in addressing our unique banking requirements."
